

Weather

Part 1:

Question 1. What is the weather usually like in your hometown?

Answer:- Well, the climate in my hometown is warm, and I've found that people are generally satisfied to make it their home as they don't like to deal with extreme temperatures.

Question 2. What's your favourite weather?

Answer:- Actually, I like the cool weather since it gives me an opportunity to wear my wide variety of cardigans and jackets. Additionally, I can eat a wide range of veggies.

Question 3. Do you like the weather in your hometown?

Answer:- As I've previously said, the climate in my hometown is a bit of a mixed bag. However, **Denizens** are so pleased with the pleasant climate that they spend most of their time outdoors in the morning and evening.

Question 4. Do you like wet weather?

Answer:- Absolutely yes, I like the wet climate. The only time I really don't enjoy it is when it's raining, which isn't very often. However, fritters and coffee are perfect for this weather.

Question 5. Do you prefer wet or dry weather?

Answer:- Since I've previously told you, I like rainy days. I feel joy from both the act of making paper boats and the panorama of rain on plants.

Question 6. Do you like hot and dry weather?

Answer:- No, I don't prefer any of them.

Question 7. What do you do in hot weather?

Answer:- When it's really hot outside, I like to stay in my room and watch TV while snacking on some of my favorite fritters. I don't really have any thought-provoking habits, and I like to spend my time at home.

Part 2:

Describe your favourite season

Introduction

Addressing the fact that I get to experience all five of the country's seasons namely summer, winter, autumn, spring, and monsoon. It makes me feel fortunate to live here in India.

What season it is?

Out of all these seasons, my favourite is winter because I have always been captivated by the cold weather that almost lasts from November to January.

How that season is different from other seasons?

The Winter season always comes with energy, and a pleasant climate throughout the day unlike other seasons like summer or monsoon, because they are more exhausting to me. But, the nights in winter are longer than in any other season. Therefore, I get perfect sleep and am fully charged for the day.

What the weather is like at that time of year?

In this season the weather is cold. This type of weather is very helpful for farmers to grow crops and pulses. Hence this season is considered significant for the agricultural economy of India.

Explain how you feel about that season.

Actually, In winter, I usually visit places like Manali, Shimla and Leh for a family vacation, so I feel mentally relaxed and it gives me time off of my daily routine. Hence, for me, winter is always a way to detox and get fully inspired and motivated again.

Conclusion

Lastly, I have started to follow a strict routine for my health throughout the three to four months of the winter that lasts in my country. For me personally, this is the most enjoyable period of the year. I always look forward to this season.

Part 3:

1. Do you think that the weather affects people's moods?

Answer: Yes I do think that weather affects people's moods. In fact, I have read an article that talks about the differences between people's behaviour in cold and warm countries. Also, I have experienced mood changes when it is rainy or cold.

2. Does air pollution affect the weather?

Answer: Air pollution causes the temperature to rise and is a reason for global warming. This has in effect resulted in an increase in heat in the summer season and rains during the monsoon season.

3. Do you think that weather affects people's behaviour?

Answer: Weather has the ability to change people's behaviour. It is scientifically proven that people living in different climatic conditions have distinct behaviours.

4. What are some other examples of bad weather in the world?

Answer: Some areas are affected by heavy rainfall and some places get no rainfall and heat waves that cause draughts. As we go toward the poles, the places get heavy snowfall.
